PROFESSIONAL SUMMARY

As a dedicated Data Analyst with over 8 years of experience in a variety of business settings, I have developed a solid foundation in Data and Business Intelligence Analytics. My experience has been shaped by a consistent focus on delivering practical, data-driven insights and developing efficient analytics solutions to support business objectives. I pride myself on my attention to detail and my ability to solve complex problems in a collaborative environment. Eager to contribute my skills and grow in a role that values meticulous analysis and thoughtful application of data technologies, I am currently expanding my skill set into Data Science and Machine Learning, aiming to contribute deeper analytical insights in a dynamic, technology-forward role.

SKILLS & TECHNOLOGIES
